REGISTRATION

PREPARING FOR REGISTRATION

- Review Schedule Builder section in Aggie 101
- Create Schedules in Schedule Builder in Advance
  - You have access to Schedule Builder now and registration will go smoother if you have prepared Schedules and petitions (if needed) in advance.
- Prerequisite Petitions
  - If UC Davis does not have your updated records or if the course equivalencies are not articulated correctly, you may be required to create a Prerequisite Petition in Schedule Builder before you can register for a course. Prerequisites are taken very seriously by our department. Please be sure that your Prerequisite Petitions are thorough and provide documentation.
- Suggested Courses Feature
  - If you have an academic plan saved in OASIS, Schedule Builder will recommend courses based on the academic plan.
OTHER REMINDERS

- **Seat Release**
  - Many courses are on seat release. Seat release ensures your ability to enroll in high demand courses regardless of your Pass time. If a course looks full now, check back right before registration begins. More seats may have been "released."
    - You can tell which courses are part of seat release if they have a note that says **THIS COURSE DOES NOT HAVE A WAITLIST IN PASS 1 **

- **10-Day or 20-Day Drop Deadlines**
  - All courses at UC Davis either have a 10-Day or 20-Day drop deadline. This means that you only have the opportunity to drop that course through the 10th day or 20th day of instruction. Almost all Statistics courses have 10-Day drop deadlines. Dropping a course after its drop deadline can only be granted for extreme situations by the Letters and Science Office of the Dean.

- **Quick Tips**
  - R = Thursday
  - Refreshing your browser resolves 99% of issues with Schedule Builder. :)
  - You can toggle the "View" to see a calendar view of your schedule.
