

Math & Stats Career Night

Please join the Departments of Mathematics and Department of Statistics for an informal panel discussion on career development.

Topics include how to network or market yourself to industry recruiters, what skills and abilities are important in your area of interest, and what search techniques you should utilize when applying for potential jobs. You will also have the opportunity to ask questions of the panelists and refreshments will be provided.

Thursday

April 30

5:30pm-8:00pm

MSB 1147
